

Lacey Scarflet

Designed by [Brenda Myers](#), 1/25/07

SKILL LEVEL: Intermediate

SIZE: Approximately 6 inches wide X 27 inches long

MATERIALS

- Yarn: 1 skein of worsted weight in winter white
- Loom: 24 peg Blue Knifty Knitter or any large gauge loom with a minimum of 16 pegs
- Crochet hook

NOTES

- Instructions are for two strands of yarn held as one strand
- The knitting is worked in a flat panel and cast on from left to right. All odd rows are worked from right to left and all even rows are worked left to right.
- Stitches: E-wrap, Purl, Mock Crochet
- Techniques: Chain cast on and flat panel bind off.
- Keep the tension loose except where indicated.

ABBREVIATIONS:

BO = bind off	KO = knit off
CO = cast on	MC = mock crochet stitch
CCW = counterclockwise	P = purl stitch
CW = clockwise	st = stitch
EW = e-wrap	WY = working yarn
FK = flat knit stitch	

INSTRUCTIONS

Chain Cast On

- Using two strands of yarn held as one, make a slip knot and insert crochet hook through the knot. Bring the WY to the outside between pegs 24 & 1.
- Working from left to right with the crochet hook behind the pegs, reach between pegs 1 & 2, hook

the WY and pull it to the back through the slip knot on the crochet hook.

- Continue in this manner until the last loop between pegs 15 & 16 has been pulled. With the WY behind the pegs, place this last loop on peg 16. Tug WY to tighten the loop.

Beginning Scarf Edge (garter stitch pattern)

Row 1: Bring the WY CW from behind and around peg 16 then FK. EW pegs 15-1 CCW and KO. End row with WY behind peg 1 and tug to tighten.

Row 2: Bring the WY CCW from behind peg 1 to the front of the peg and P pegs 1-16 ending with WY behind peg 16; tug WY to tighten.

Rows 3-4: Repeat rows 1 & 2, ending purl row 4 on peg 16; tug and tighten WY.

Body of Scarf – Mock Crochet Stitch

Beginning notes:

- The mock crochet stitch is usually worked using three pegs: one middle peg and the neighboring pegs on each side. When beginning a row, the sequence begins by knitting one peg, and then two pegs until the standard three pegs are included in the stitch sequence. When ending a row, the sequence ends by knitting the last three pegs, then two pegs and finally the one peg.
- The middle peg is the one with the WY hanging from the back.
- The WY is always wrapped in the opposite direction from which you are working. If you are working right to left, the WY is wrapped CW around the three pegs. If you are working from left to right, the WY is wrapped CCW around the three pegs.
- Since you are wrapping one big loop around three pegs, it is best to first KO the ending peg in the sequence. This keeps the yarn from slipping off the other pegs.
- As you KO the trio of pegs, lightly pull each st away from the peg to loosen the tension. Otherwise the last st in the sequence becomes difficult to KO.

Row 5: Beginning mock crochet stitch, working from right to left:

- a) Bring WY CW once around peg 16 and FK this peg.

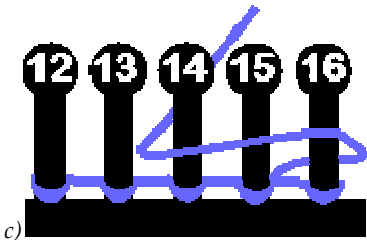

- b) With WY behind pegs 15 & 16, bring WY CW around the right side of peg 16 once again to

front and around BOTH pegs 16 & 15. FK both pegs.

- c) With WY now behind peg 15 (middle peg), bring the WY CW around and across pegs 16, 15 & 14. FK all 3 pegs starting with peg 14. Be sure to loosen tension by lightly tugging loop on peg after knitting each stitch.

- d) Peg 14 is now the middle peg. Bring WY CW around and across pegs 15, 14 & 13. FK all 3 pegs, starting with peg 13. After knitting, peg 13 becomes the middle peg.

- e) Continue wrapping WY from behind the middle peg CW around and across the 2 neighboring pegs (total of 3 pegs), and then FK each of the 3 pegs (as in step d. above). Repeat this sequence until the last 3 pegs are worked in the sequence are worked and WY is behind peg 1 (the last peg).
 f) Bring WY CW around and across both pegs 2 & 1, then FK both pegs. WY is still behind peg 1.

- g) End row by bringing the WY CW around and across peg 1 again, and FK. Tug WY lightly behind the peg to tighten just a bit.

Row 6: Work mock crochet stitch, working from left to right:

- Bring WY CTR-CW from behind peg 1, then FK this peg. (Similar to step 5a).
- With WY still behind peg 1, bring WY CTR-CW around and across pegs 1 & 2. FK both pegs.
- With WY now behind peg 2 (middle peg), bring WY CTR-CW around and across pegs 1, 2 & 3. FK all three pegs, starting with peg 3. Be sure to loosen tension by lightly tugging loop on peg after knitting each stitch.
- Continue working each of the groups of three pegs as in Step 6a across the row until the last group of three pegs are worked and the WY is behind peg 16.
- Work pegs 15 & 16 CTR-CW, similar to Step 5d.
- End row by working the last peg (peg 16) CTR-CW, similar to Step 5e.

Rows 7-38: Repeat Rows 5 & 6 until 40 rows or approximately 25 inches of mock crochet rows have been completed.

Ending Scarf Edge (garter stitch pattern)

Rows 45 & 47: Bring WY CW from behind peg 16 and P. Continue to work P st on pegs 15-1.

Rows 46 & 48: Bring WY CTR-CW from behind peg 1 and FK this peg. EW and KO pegs 2-16.

Bind Off

Work a flat panel bind off as follows:

- With WY behind and between pegs 16 & 15, slip (skip) peg 16, EW peg 15 and KO.
- Lift the loop from peg 15, place it on peg 16 and KO.
- Return the loop from peg 16 to peg 15. Peg 16 is now empty.
- EW peg 14, KO & move this loop to peg 15. KO peg 15 and return loop to peg 14. Peg 15 is now empty.
- Continue the BO sequence until the last peg has been removed from the loom.
- Pull the WY through the last loop and tie off.
- Secure all loose yarn tails at the beginning and end of the scarflet.

Bobble Buttons

These buttons are technically not bobbles, but a small strip knitted separately and then tied onto the edge of

the scarflet. They have a look similar to Chinese ball buttons. Make 3 buttons as follows:

- a) Using two strands of yarn, make a slip knot leaving a 4 inch tail and place it on peg 2 of your knitting loom with the WY & tail behind the peg.
- b) With your finger on the slip knot to hold the loop in place wrap WY CW around peg 2 and KO. Tug WY lightly to tighten.

- c) Increase one peg by bringing WY from behind the pegs, turn CW on peg 3, EW CTR-CW peg 2 & KO.

- d) Increase another peg by turning WY CTR-CW on peg 1, EW CW & KO both pegs 2 & 3.

- e) Bring WY from behind peg 3, turn CW on peg 3, EW CTR-CW pegs 2 & 1. KO all 3 pegs.
- f) Bring WY from behind peg 1, turn CTR-CW on peg 1, EW CW pegs 2 & 3. KO all 3 pegs.
- g) Repeat steps "e)" & "f)" once.
- h) Begin decrease by lifting loop from peg 1, place it on peg 2 and KO.
- i) Decrease again, by lifting loop from peg e, place it on peg 2 and KO.
- j) EW peg 2 CW & KO.
- k) Lift loop from peg and tie off leaving a 4 inch tail. The button will be shaped similar to this:

- l) Tie the beginning and ending yarn tails on the knitted strip together so the knit forms a ball in the middle. Tighten and then tie once more to lock the knot in place. DO NOT cut the yarn tails. The button should now look something like this:

Finishing

Determine placement of buttons along the outer long edge of the scarf by bringing the opposite short CO edge of the scarf around and placing it along the opposite outer long edge (see main picture of completed scarflet).

The buttons need to be spaced so they can be buttoned through the knit stitches along the short CO edge.

Attach the buttons by hooking one set of the yarn tails to the back through a knit stitch along the long edge. Move a couple of stitches over from and hook the other set of yarn tails to the back of the scarf. Take the tails and tie in a square knot to secure.

Square Knot

Weave the yarn tails into the surrounding stitches and trim to finish.

When wearing the scarflet, fold the back edge to form a “collar” and button the short edge to the end of the long edge as pictured at the beginning of these instructions.
