Pearly Satchel

A girly little bag to carry the bare essentials to that perfect date. It will fit a credit card and a lipstick. Be ready for that special date! When I was designing it, I was thinking of my prom night and how I would have liked to have something of the kind.

Pattern is available for knitting with needles and for knitting it on a knitting loom.

Enjoy!

HOW TO SECTION

Knit stitch: place the working yarn above the loop on the peg. Reach with your knitting tool through the stitch on the peg (from bottom up). Hook the working yarn thus forming a loop, hold this loop with your fingertips or knitting tool. Take the original loop off the peg and place the newly form loop on the peg. Tug gently on the working yarn to tighten the stitch.

Slip a bead: Knit until you reach the point to slip the bead. Slip the bead before knitting the next stitch. The bead should be between the pegs, and towards the back (not in front of the pegs).

k2tog: move the stitch from peg to the right to peg to the left. Knit the two stitches together (lift both loops off the peg).

yo: e-wrap the peg

Preparation: Before you begin, string 68 beads onto the yarn. As you knit, move them towards the other end of the ball as needed.
